Vintage Polish Military Wool Blanket

Please read this description very carefully, as each blanket is stunningly unique and different! The pictures shown are just a few examples of the different variations of this blanket.

These Cold War Era blankets are both bold and stunningly beautiful. Thick and heavy, the blankets are an ideal blend of 50% wool and 50% polyester. They are easily some of the most interesting and unique blankets we have ever come across.

While digging through warehouses in Europe, we were quite lucky to find such a hidden gem and we bought them all! The challenge is that almost every blanket is different! Faced with this dilemma of so many colors and patterns we decided to sell them by color. This means you pick one color and your blanket will contain at least that one color. Choose: Gray, Green, Blue, Brown, Red, Yellow, Orange, Pink, or Burgundy. That does not mean it will be the only color of the blanket, that simply means it will be sure to have the color you picked represented. The patterns also vary so more than likely each blanket you order will be different. These blankets all measure approximately 60" x 80". Edges of the blankets may also vary from whip stitching to hemmed. Unused Condition.

Vintage
Polish Military Wool Blanket

Please read this description very carefully, as each blanket is stunningly unique and different! The pictures shown are just a few examples of the different variations of this blanket.

These Cold War Era blankets are both bold and stunningly beautiful. Thick and heavy, the blankets are an ideal blend of 50% wool and 50% polyester. They are easily some of the most interesting and unique blankets we have ever come across. While digging through warehouses in Europe, we were quite lucky to find such a hidden gem and we bought them all! The challenge is that almost every blanket is different! Faced with this dilemma of so many colors and patterns we decided to sell them by color. This means you pick one color and your blanket will contain at least that one color. Choose: Brown, Red, Orange, Pink, or Burgundy. That does not mean it will be the only color of the blanket, that simply means it will be sure to have the color you picked represented. The patterns also vary so more than likely each blanket you order will be different. These blankets all measure approximately 60" x 80". Edges of the blankets may also vary from whip stitching to hemmed. Unused Condition.

U.S. G.I. EUREKA MGPTS

Type III Tent 18' X 36'

This tent is the replacement for the tried and true General Purpose tent that has been in service since the 1950s. This is one amazing tent system. The MGPTS Type III incorporates all of the features and benefits of the standard tent system with a patented internal arch for support and clear, unobstructed interior space. This proprietary arch system creates a structure which distributes wind, rain and snow loads away from the fabric and directly to the arch (or support system), making a stronger, more durable fielded structure. The MGPTS is designed for superior use in various climate and weather conditions ranging from sweltering heat to severe cold. More versatile and more habitable than its predecessor, the former General Purpose tents, the MGPTS can be used for medical facilities, troop billeting, command and control, field service support, emergency/disaster relief, maintenance functions and storage. These tents are Used Condition.

Features: 3 Doors, 2 ECU Ducts, 3 Stove Pipe Vents.

- Passed all of the rigorous testing parameters for wind, rain and snow loads at Aberdeen Proving Ground, the most diverse, rigorous test site utilized by the Department of Defense

- Withstands exposure to direct sunlight for 18 months and tolerates temperatures to 160° F

- No ladders, vehicles or tools needed to install the tent

- Smaller crew size (4-6 personnel) can have the MGPTS Medium mission-ready in under 40 minutes

- All components are interchangeable and operable with all other MGPTS parts

- Interfaces with standard military shipping equipment, heaters, lights and ECU's

- Compatible with standard military camo net system

- Patented internal arch distributes wind, rain and snow loads more efficiently than current systems on the market

- All components are interchangeable between sizes and with the MGPTS Type I

- Can complex to any MIL SPEC tent with attached standard TEMPER vestibule adapter

- No parts longer than 96" when configured for transport, fits easily into an ISO container, TRICON container or standard pallet

- Over 50,000 fielded around the world

U.S. G.I. Vintage Heavy Duty Folding Table, 1955 Dated, Unused

Yes, you read that correctly.

This tough table is still new in the box from over 60 years ago, when they built things to last. This over-engineered table is made from quality U.S. steel. Officially designated as a bedside table by the military but that would not do it justice. This table can hold some serious weight and would be perfect for camping, reenactors, in the shop, etc. A true "last several generations" piece of equipment. The table is 27" high and the table top measures approximately 15" x 17". It weighs approximately 15 lbs. Folds flat for transportation and storage. Painted Olive Drab Green. Manufactured by R. K. Tyra Corp in Tyra, Minnesota. Unused Condition in box.

Robust Vintage Wooden Box

Old military boxes are hard to find because they tend to get abused, beat-up and usually

destroyed. We found these handsome boxes in very nice condition for their age. This box would make a nice coffee or end table. Even bolt them to the studs in your walls horizontally for shelves or vertically for cabinets to display your military collectables. If you need storage, forget the cheap plastic or cardboard storage boxes. These Swedish Military boxes were made tough to withstand being tossed around during packing and unpacking time and time again. These are very useful boxes for storing a variety of things like ammo, tools, or even fragile items. These solid wood boxes are equipped with reinforced metal corners. You can easily stack these on one another and not have to worry about the bottom one collapsing. Handles on each end, each one fastened to the box with 5 rivets. Two latches on hinged lid with the capability to put a lock through them to safely secure the contents. Measures 29 3/4" x 10 3/4" x 13 1/4". May have outer cosmetic blemishes..
